## PETERS WINS IN THIRD DISTRICT

**Victory of Republican Candidate  
a Suprise to Many---Lawrence  
a Poor Third.**

Again the Republican rooster is crowing for John Peters of Ellsworth, who was elected to Congress from the 3rd district to fill the vacancy caused by the death of Hon. Forrest Goodwin of Skowhegan. Pattengall ascribed his defeat to treachery in party ranks and claims that the democracy of Maine to be still loyal to Wilson.

The total vote was, Peters 15,019, Pattengall 14,552, Lawrence 6,479, giving Peters a plurality of 467.

Peters looks upon the victory as a great triumph for the Republicans and believes that it will tend to unite the anti-democratic strength.

Lawrence states that for the first time the Progressive party in the state is established upon a firm basis and the first time that they have had a working organization.

Peters the Republican candidate was probably as strong a man as they had in their ranks. The people by their votes have elected a man who will be a credit to them, to the district and to the state.

The vote on the amendments was very light in all parts of the state but both were carried by a good margin. In Phillips the vote was question No. 1, yes 5, no 33, question No. 2, yes 28, no 11.

## ABOUT THE CHURCH VESTRY

To the Editor of Maine Woods:

Phillips, Sept. 3—It is an established fact with church workers, if the church is to fulfil its mission in ministering to the needs of the community in which it is placed, it must have some suitable room for social gatherings of the church and Sunday school, with kitchen facilities to make it convenient and desirable to maintain such work.

After much prayerful consideration of the subject of ways and means of meeting the need, the present rooms were secured by the committee of the Congregational Church having that matter in charge, and all who have been interested enough to visit the rooms or attend the social functions in some of the varied gatherings, such as Sunday school class meetings and receptions to the different departments

of the Sunday school and church, the Social Union meetings, Service Club, Boy Scouts and anything that tends toward the upbuilding of our churches and Christian character in our town, and especially to give our young people reasonable and proper entertainment, which if not provided by parents and church, will certainly be sought in perhaps undesirable places.

Very unexpectedly these rooms must be vacated by the church, just as the work is commenced and looks promising, as the owner of the building wishes them for his own use, thus disturbing all the plans that were under way for social work and raising money for the support of the church.

The Free Baptists own a vestry just in the rear of the church building, and plenty of land to build an addition needed for the work; this could be wired from the church on the same meter and during many months there would be no extra cost for light. The house is very cool in hot weather and easily and quickly warmed in cold. We ask the question—Is it right for a building desirably located for church work in our midst to be used only an hour or two once a week or once a month? We believe thus to hold the building almost useless and fast going to decay, is really defeating the original designs of the donors who very impressively laid the injunction upon their successors in the church to see to it that it was held sacred for church work. We also believe were these men with us today, and seeing the need of our more complex life and society, and the many places of temptation provided to win away from the church, by those who do not properly value her work and endeavor, that they would vote for and generously help the larger work and opportunity of the church, and in the name of All Good may we ask what endeavor is more sacred, more Christlike than trying to save our youth from the lower elements of their nature and raising their ideals of what constitutes a good time and real recreation and having class meetings and devising ways to work off their youthful, healthy energy in ways that will develop Christian character and build up the church membership.

As a member of the society which owns the vestry, I affirm without hesitation, if this opportunity of offering the building for the church and Sunday school work that we are endeavoring to do, that we are missing an opportunity for usefulness that we may bitterly regret. The rent that we now are paying for the use of church parlors, would in five years, amount to enough to pay for the additions and would make a permanent place for the various kinds of church work and worship.

Of course, there are business considerations that must be met. First of all, there is getting the title back, which in an ill-advised moment was

## A REGULAR FREEZE

**Gardens in Phillips and Vicinity  
Destroyed by Frost.**

Jack Frost made a call at nearly all the farms in this vicinity the night of September 9 and left destruction in his wake. Nearly all the farms and gardens about town suffered heavily and in many cases were totally destroyed. Many people sprinkled their gardens in the early morning hours, but all to no purpose for the water would freeze as quickly as it struck. Only some of the farms situated on the hills escaped with only slight damage.

Win Huntington of Bragg Corner reports that water froze in a pail at the back of his house to a depth of an inch.

given away. Mr. Hutchins says we have the promise of that if it has not already been received, but if all parties concerned will approach the subject in an unselfish spirit there need be no real obstacles in arranging for all to be properly accommodated for their work, which, though done under different heads is really one. The suggestions here given are those advanced by individuals and may be practical. One is that the Free Baptists sell one-half the vestry and have the ownership the same as the church building, or to the Congregational society alone, and then the owners enlarge and repair as seems best. Or another view, that if the Congregationalists preferred to pay the amount that they are paying now for rent each year, the sum in five

## LADIES TAKE HONORS THIS WEEK

Poet Lodge and Camp Klain Entertaining Happy Parties—Children Give Pretty Masquerade.

(Special to Maine Woods.)

[The] Barker, Mooselookmeguntic Lake, Sept. 1—"Homeward" seems to be the general direction in which many are now touring, while other wise ones who know the charm of September days here on the lake-side, with cool, bracing air and good fishing, are coming to spend the month.

This morning a big touring car owned by Ingmore Goldsmith is at the door, waiting for the party, Mr. and Mrs. Goldsmith and friends who are planning to go through Dixville Notch, and reach the Balsams this evening and tarry there a few days.

The fishing the past week has been extra good and although many are daily caught, as there are always a number of boats anchored on the clay beds, only a few are recorded.

Master Henry S. Louchleim of Philadelphia with H. Fuller guide, pulled in a big salmon for a little chap to handle, a 5 pounder.

Col. S. D. Lit of Philadelphia is proving himself a good angler, for he has caught many, but records but one, a salmon weighing 5 1/4 pounds.

E. R. Thompson another Philadelphia gentleman records a 4 pound salmon.

Several of the ladies have this week had the honor of landing record salmon. Mrs. James Goodfriend of New York, Gard Hinkley guide records a 4 pound salmon. Mrs. S. Sykes of New York, Ernest Godwin guide caught a 3 1/4 pound trout. Miss Marion B. Louchleim a Philadelphia young lady with H. Fuller guide brought in a 3 1/2 pound salmon. Mrs. David Metzgar of New York, Harry Nelson guide is proud of the 4 1/2 pound salmon she caught. Mrs. Jules E. Mastbaum of Philadelphia with H. Fuller guide a 3 pound salmon. Dr. Dewitt Setten of New York, Gard Hinkley guide caught a salmon weighing 3 3/4 pounds. These were all caught plugging and "plug fishing" is sure to hook every fish that swims over the clay beds.

Poet Lodge is now entertaining

the following happy party: John E. Lynch of Boston and his daughters, Mrs. Henry H. Lynch and two children of Brookline, Mass., and Mrs. E. Swift and son of Princeton, N. J. They plan to remain until the middle of this month.

A party of New York gentlemen came yesterday for a ten days' stay in Pine Tree cabin, Messrs. S. C. Lamport, David Borton and E. J. Liebovitz.

William E. Wiers of New York is spending his vacation at this hotel.

Three ladies from Providence, R. I., Misses M. C. Logan, Sophia A. Grant and K. M. Grant arrived Saturday for a stay of two weeks in Camp Comfort.

Mr. and Mrs. E. A. Adler and two children are among those who spend part of the month in camp here.

Col. S. D. Lit and party were this week joined by their friends, Mr. and Mrs. L. Mastbaum of Philadelphia.

A New York party who are here for the first time are Mr. and Mrs. David Metzger and daughters. They are very fond of woods life and go camping and fishing every day.

Camp Klain was taken for the past week by the following party of gentlemen, who left for home this morning; Dr. S. L. Gans of Philadelphia; Messrs. David Gerber, S. T. Baron and C. T. Levy.

"Jack" Vance of New Britain, Conn., was greeted by many old friends on his arrival this week.

Dr. Dewitt Setten of New York joined his wife and children on Sunday and will spend some time in Cozy camp.

The children on Monday evening gave a very pretty masquerade party at the casino. They had games and dancing; prizes were given and all voted it one of the most enjoyable and social evenings of the season.

Although several parties are going home this week, others are coming and the last month of the season now promises to be a busy one.

## SEVEN POUNDER ON PROFESSOR FLY

Lynna Fisherman Having Fish Mounted—Give Enjoyable Marshmallow Party.

(Special to Maine Woods.)

Lakewood Camps, Middle Dam, Sept. 1.—As one looks up the lake they catch a bit of the autumn colors that can now be seen in the forest which will soon be painted a bright crimson and gold.

"The fly fishing has been extra good here for the last ten days. In fact I have never had better sport," said a friend when I asked "what luck the past week?"

Everyone is telling about the big salmon, 7 pounds, that on Saturday took Harry L. Norris' professor fly that he cast for him in the pond-in-the-river. Billy Morton was the guide who skillfully landed him. Mr. Norris left for his home in Lynn, Mass., to-day but the silver beauty is being mounted by H. L. Welch to decorate his city home and also prove the fish yarn he may reel off to his friends.

"The fly fishing is extra good and thank God the law allows only fly fishing from the dam to Umbagog and my 2 pound salmon gave me great sport" said another angler.

Just now the carry teams have come in from Sunday cove. 16 people and 9 big trunks I have just seen unloaded and one lady very enthusiastically remarked, "That trip from the Balsams through Dixville Notch was so wild and grand, we did not see anything more beautiful last year while in Europe."

I have noticed that those who take the trip through the chain of Rangeley lakes and the White Mountains often declare there is none more fascinating in this country.

On Saturday evening Mr. and Mrs. A. E. Woodruff of Mount Carmel, N. J., gave a marshmallow toasting party. All the young folks gathered here in the office and with long pointed sticks toasted the marshmallows over the open fire. Then they told stories and played tricks until the midnight hour. "We do have such jolly good times down here" said one of the young ladies in speaking of life here.

The Van Roden boys of Philadelphia with Geo. York guide, are having the time of their lives off on camping trips. Last week they camped on the shore of Matilluc pond and counted twenty-six deer feeding on lily pads, which always make a dainty breakfast for them.

Mrs. R. Marshall Truitt, two sons and her mother, Mrs. Saml. Stokes of Germantown, Penn., who have been enjoying life in one of the cabins for two months regretfully started homeward this week, planning to come another summer, so much have they enjoyed this their first stay at Middle Dam.

E. A. Burlingame of Providence, R. I., who with his family spent a month here the first of the season, has returned for a few days of fly fishing and Bill Morton will land his fish for him.

Mrs. A. L. Salt and son of Summit, N. J., came over from their delightful summer camp on Umbagog lake and made a trip up the lake this week.

Hon. M. Hampton Todd and party of Philadelphia, who are spending the season at the Birches, with Jim Stewart their guide have taken a cabin here for several days and will try their luck and skill fly fishing.

Mr. and Mrs. Edward W. Jones of Salem, Mass., who were so much pleased with their stay here last year came this week to spend the September days.

W. H. Kimball of Providence, R. I., has also come for a few days fly fishing.

Hon. J. Russel Marble accompanied by his wife and daughter and son of Worcester, Mass., registered here to-day from the Balsams, en route for the Mooselookmeguntic House and a tour through the lakes.

Two young gentlemen, who are on a bicycle trip through the country and having a great vacation are E. S. Bassett of New York and S. S. Kent of New Haven, Conn., and they wonder why more boys do not spend a summer as they are doing.

It was fun to watch the porter handling a dozen trunks that came over on the buckboard and hear him say "they are as big as a bed room."

Duck shooting is now in order and as many are seen around here there promises to be good sport.

Every cabin will be taken this week for those vacated to-day are already engaged and September promises to be a busy and a happy month for the city people who remain at Middle Dam.

"Don't leave out the report of that 3 3/4 pound trout that R. F. Whitmore of Lynn, Mass., caught on the fly this week and is having H. L. Welch mount" called one of the guides as Capt. Coburn said "all aboard for Rangeley" "and that 3 1/2 pound trout Harry L. Norris also caught on the fly, besides his 7 pound salmon" Bill Morton shouted as my hand bag was tossed into the boat.

The following are a part of the people who have registered here the past week and going through the lakes and mountains; E. H. Perkins, Washington, D. C.; Miss Caroline A. Turner, Mr. and Mrs. J. L. Graham, Mr. and Mrs. C. K. Lipman, Mr. and Mrs. Geo. C. Francisco of New York; Mr. and Mrs. J. B. Cone, Miss Murdock, Chicago; Mr. and Mrs. Geo. M. Newhall, Lakeville Conn.; Mrs. W. H. Clapp, Northampton, Mass.; Mrs. L. S. Wirtz, Carlisle, Penn.; E. C. Sprague, Buffalo, N. Y.; Mrs. I. Newton Lewis, Greenwich, Conn.; Mr. and Mrs. C. E. E. Whiteley of Brooklyn, N. Y.; Harry M. Bliss, Boston; Mr. and Mrs. W. H. Chase, Miss Ellen Chase, Mr. and Mrs. Albert Liebman, Mr. and Mrs. Harry D. Andrews, New York.

### ABOUT THE \$25 LICENSE

New York City,

Sept. 2.

To the Editor of Maine Woods:

Have noticed what you have said in recent editions of your paper in regard to the \$25 license and I also note that many brother sportsmen think the same as I do about it; that it is unfair and too much for the privilege of shooting one, or if lucky, two deer in your state.

I have read the explanation that you gave of the cause of the license and have also learned through other sources that it was a mistake as you claim. I have also learned the name of the gentleman that "put it over" the committee and the legislature and I can almost admire him for the cleverness with which it was done. But it does seem to me a little hard when I want to come to Maine for my usual hunting trip this fall and although I am not a wealthy man and cannot afford the extra \$10 I intend to change my former plans and make my usual trip there this year. When I first heard of the increase I, believing that it was done intentionally, declared that I would never go hunting in your state again, but knowing as I do that all the people of the state regret the increase as much as we outsiders do, and not wishing to give up my hunting even for a year I think that the last of October will see me back in my old hunting grounds.

Enclosed please find \$1.00 for another year of your excellent paper. With best regards, I am,

Yours truly,

B. S. J.

## NEW POND DISCOVERED

Dr. Peary and Companions Discover and Name New Pond—84 Trout Caught at Otter Ponds.

(Special to Maine Woods.)

West Carry Pond Camps, Dead River, Sept. 2.—A party from West Carry pond recently discovered a new pond, which Mr. Taylor the proprietor was unaware existed. A fishing party consisting of Roger E. Criado, Rod Taylor and Rufe Taylor made a trip to the three Otter ponds not expecting to make a discovery. After fishing awhile in the ponds one of the party crossed a ridge to look around. Suddenly he came upon the new pond just at the foot of the ridge. It was a circular body of water, the shores being covered with a thick layer of moss. The water of the pond was as clear as crystal. As well as the party could tell there were no fish in the pond but thinking of the future they returned to the other ponds and as fast as they caught fish they would take them over the ridge and place them in the new pond. Elated by their discovery, Dr. Cook, Dr. Peary and Columbus as they dubbed themselves started for the home camp at West Carry pond, to tell the news, but before they reached camp they had another sight which does not fall to the lot of every summer visitor. They had proceeded only a short distance from the pond when they came upon a moose that was preparing to lie down. Criado succeeded in getting a snap shot of the animal before he got their scent and went off. On account of the moose which was evidently feeding on the moss of the shore they named the new pond, Moose pond, making another Moose pond to add to the number that the state already has.

On another trip a little later to the Otter ponds, Mr. Criado with Rod Taylor for guide got 84 fine trout which is a good record for the ponds.

Dr. and Mrs. L. Criado, Roger F. Criado, esq. and Master Walter Criado of New York City are at West Carry pond until November. Dr. Criado has for 16 years been visiting Maine and has been to nearly all the camps of the state.

The following have registered at West Carry pond: John J. Merriman, Hartford, Conn.; H. C. Hilton, Windsor, Conn.; F. N. Beal, Phillips; F. P. Kalkoff, Mr. and Mrs. A. C. Greenwood, Mr. and Mrs. R. F. N. BEAL, G. P. A.

Mass at 10.30 a. m. at the little church of "Our Lady of the Lake" and preached a most eloquent sermon on "charity," which made a deep impression on all who were fortunate enough to be present.

This has been just the ideal weather for camping and tramping and everybody has been somewhere.

To-day a party of the guests went to Kennebec for a Sunday excursion.

Last evening Mr. and Mrs. W. A. Garrigus chaperoned a party of young people to Fudge cove where they cooked their supper and had a jolly good time.

Messrs. A. Montgomery, Jr., and A. Horman Wirz with Fowler guide, have been up Kennebec stream for a camping trip, where they had great fly fishing and greatly enjoyed wilderness life.

On Monday a party of 30 from Rumford kept Labor Day by dining here on their way to Mingo Springs for the ball game.

The following party coming by automobile reached here Monday for a stay of several days; Prof. and Mrs. Geo. T. Files, Misses M. A. and Helen Files, Miss Agnes S. Nearing, Miss Margaret Schroder of Brunswick; Hon. and Mrs. Wm. D. Pennell of Lewiston; Dr. and Mrs. Noodbury Palsifer of Washington, D. C.

The large camp next the annex which has been taken for several weeks by a Boston party, is now occupied by Mrs. R. Stone and maid. Miss M. W. Stone and Master Gordon Hardie of New York who remain until October.

Many old friends of Mr. and Mrs. T. S. Rowlett and son, R. Stewart Rowlett of Boston were delighted to greet them on their arrival Wednesday for their usual September visit here.

Two young gentlemen are here. Two young gentlemen are here for their first visit, Messrs. H. W. Phillips of Hackensack, N. J., and E. H. Bronson of Brooklyn, N. Y., and they are having the time of their lives.

"Fisherman" Hawkins of Providence, R. I., is still keeping up his reputation as an angler, for this afternoon he dropped the hook in Rangeley lake and when he returned just before supper, everybody congratulated him for he came in with a pair of handsome salmon weighing 4½ pounds and 2½ pounds each.

Mr. and Mrs. S. Pretzfeld of New York are here for their first visit. Jack McKennon is to guide him. Jack came to-day from King and Bartlett camps where he has been guiding for six weeks and reports that everyone over there is taking a great interest in Knowles' life in the forest and that they all anxiously wait for birch bark letters and sketches that he sends out. It

now looks as if Knowles would accomplish his feat and hereafter have plenty of money and plenty of clothes.

R. Clarence Dorsett, his daughter, Miss Carolyn H. and aunt, Miss Ella L. Dorsett and maid of New York, who have been passing the summer at Hotel Samoset, Rockland Breakwater, reached here Wednesday where they will remain during September as they have done for a number of years.

Wm. B. Mitchell, Jr., of Philadelphia is among the new comers and all by himself he goes fishing. To-day he brought in a 3 pound salmon.

William Lilly of New York and his fiancée, Miss Ethel Curtis of Trenton, N. J., on Saturday joined their friends, Mr. and Mrs. E. A. Pearce of Hackensack, N. Y., for a two weeks' stay.

Al Sprague came in to-night which is all proof that H. L. Damon is coming, but for the present he is going to help Wm. Lilly land a few fish.

Miss E. Iasigi and sister, who have been at Bar Harbor and their friend, Miss Codman of Boston after a few days' stay leave in the morning for a trip through the chain of lakes returning home via Dixville Notch.

The following party of gentlemen from Gardner, Mass., coming by automobile reached here this afternoon: Messrs. F. L. Butler, G. A. Keyworth, C. H. Hartshorn, J. H. L. Snod and D. R. Collins. They are happily located for the remainder of the month in one of the camps.

The trio, Roger Holloway, Cyrus Bissell and Chas Whipple have returned from a camping trip to Kennebec pond where they kept house all by themselves out under the stars. They had good fishing and enjoyed their own cooking.

Mr. and Mrs. O. H. Olfene and party of Auburn arrived by automobile this afternoon for a short sojourn.

## FINE FISHING AT JIM POND

Sept. 1—During the trip of the Maine Woods' reporter through the Dead River region, he made a call upon Mr. and Mrs. Charles Green at Jim pond. It was his first trip to these camps for they have been closed for some time and only opened this year. He was very much pleased with the situation and appearance of the camps. There are six nice log cabins with a large log dining room and office arranged in a straight line along the shore of the pond. Jim pond is a pretty sheet of water containing many little bays and inlets.

The pond offers almost every kind of fishing, including trout, salmon and togue. Dr. Charles Viles of Skowhegan, who is at the camps for a short stay brought in recently a fine togue which tipped the scales at 5¼ pounds.

There are two outlying ponds, Shallow and Mud ponds, both of which afford excellent trout fishing. The Dead river is also very near where there is always excellent sport.

Arrivals for August: Mr. and Mrs. E. F. Look, Eustis; Fred J. Parlin, W. C. Merrill, Ralph B. Hill, Iua G. Hill, Skowhegan; W. W. Fairclough, Richmond; C. T. Hawes, E. C. Hawes, Merton H. French, Bangor; E. A. Merrill, Westfield, N. J.; John Tissen, The Chimes; Chas. B. Butterfield, S. T. Stein, New York City; Arthur H. Russell, Robert Colt, F. L. Lunt, Winchester, Mass.; Chas. F. Ward, Geo. Ames, Mrs. Edward Whiting, Mrs. Grace Merrill, Skowhegan.

Fishing here was good the last of August. Besides small fish, Mr. Green caught a 2½ pound togue, E. A. Merrill a 2½ pound salmon and Mrs. Ralph Look a 1½ pound salmon.

### USED TO HUNT BEARS

Harry E. Smith is the possessor of a gun which was the property of his great grand-father, Capt. Church ill, says the Skowhegan Independent Reporter, and which is at least 135 years old. It has been handed down from generation to generation until it has become the property of its present owner by whom it is highly prized. The old gun is an odd looking specie of fire arms compared with the modern implements of the huntsman and warrior. It originally had a flint lock but this was changed long ago to a cap shooter, and it has trimmings made from horn. The story that goes with it is that Mr. Smith's ancestor who was its first owner, and the captain of a sailing vessel, purchased the gun in London and used it to shoot bears with up in the northern part of Maine. Among other ancient relics Mr. Smith is in possession of is a trunk which is brass tacked and which is probably 125 years old, while he is also the owner of a candle stick 150 years old.

hunting trips for 14 successive years, but I object to being robbed. In the section where I go a moose is rarely seen and even if they were there, I have killed all the moose I ever want to.

My guide, however, writes me that he thinks a \$15 license will be issued this fall for deer and birds only. If this is so I shall be interested to know it, as more than half of the non-resident hunters are intending to give up their Maine trip this fall on account of the high license.

Very truly yours,  
Joseph Brown.

Mingo Springs, Rangeley Lake,  
Sept. 2—No doubt the lakes and  
forest were just as beautiful many  
years ago when the Indians follow-  
ed a spotted line through miles of  
the then unbroken forest and camp-  
ed here by this spring of sparkling  
water. We are told that they came  
to drink this water knowing its heal-  
ing power and that they brought  
their sick ones.

To-day by the lake side are dis-  
tinguished persons who have come  
for rest and vacation days.

One of the best known physicians,  
a surgeon of renown, from Baltimore,  
Md., Dr. F. J. Kirby is here with  
his family in Rosecliff cottage and  
as their guest they are entertaining  
Mrs. Kirby's uncle, the Rt. Rev.  
Bishop C. W. Currier of Matanzas,  
Cuba, who in July was consecrat-  
ed Bishop in Rome and before re-  
turning to Cuba spends a short time  
in the United States. Last Sun-  
day morning the Rev. Rt. Bishop  
Currier celebrated Mass in Rose-  
cliff cottage and in the evening in  
the large reception room the guests  
had the pleasure of hearing him  
give a most interesting talk and we  
are happy to announce that next  
Sunday morning, Sept. 7, at the  
church of "Our Lady of the Lakes"  
at Oquosoc the Rt. Rev. Bishop  
will be present and the people of  
this region will have the opportunity  
of hearing this distinguished speak-  
er.

Miss M. L. Whitlock and friend,  
Miss Marion M. Wilkson of Los  
Angeles, Cal., who came early in  
the season and have greatly enjoyed  
life in one of the log cabins on the  
hillside, start for their home on the  
Pacific coast on Thursday, stop-  
ping in New York at the Colling-  
wood Hotel until the middle of Oct-  
ober.

The tennis court is where the  
guests spend many of the morning  
hours, while the delightful walks  
in the woods are always inviting  
those who love the ferns and wild  
flowers.

This healthy spot seems to have  
a fascination for Doctors one  
would judge by the number who  
come. C. L. Overlander, M. D. and  
friend, Wm. P. Newcomb of Boston  
was the last one to register.

Recuperation—there is not so  
much in the ordinary vacation as  
there is in a single bottle of Hood's  
Sarsaparilla, which refreshes the  
tired blood sharpens the dulled ap-  
petite, restores the lost courage.  
Take Hood's Sarsaparilla this sum-  
mer.

years would probably do the work if some of their friends would advance the money. Then the Free Baptists could give a lease guaranteeing equal rights and privileges of the building for a term of years sufficient to give them ample satisfaction for their investment. In either case someone interested must advance the money but the security that could be given would be first-class for the loan.

"Shall we make old creeds our jailer?" or will both churches lay aside bigotry and prejudice and realize that "New occasions teach new duties. Time makes ancient good uncouth; They must upward still, and onward Who would keep abreast of Truth."

May the apathy and indifference of some church members be aroused, and if any are over zealous for a particular church, as we classify churches, I imagine that God sees them all as one. May our zeal be subdued and rightly directed, and may we all realize that no good or evil can come to any of our churches without affecting the others and the whole community.

## JOE WHITE TELLS A STORY

### Four New Cabins at Blakeslee--- Cabin Promised the Boys Built at Rock Pond.

On a recent trip through the Dead River Region our reporter made a call on Joe White at Blakeslee. He found four new cabins at the home camp and Joe reports another that he built this spring at Rock pond. Joe said: We were sure some busy with parties coming and going. Those going tickled to death with their fishing trips; those coming full of enthusiasm knowing well they would get some big ones in one or the other of the many streams and lakes on the preserve." Joe stopped long enough with our reporter to tell a few of his stories. One goes as follows: There were a couple of fellows in an office that were talking about going fishing and the rest of the boys overheard them and got enthusiastic and one after another they came up and wanted to join the party, till the first fellow spoke up and says he "now look a here, this crowd is getting too big. A couple of fellows can go fishing and take along a loaf of bread and a piece of bacon and a gallon of booze and have a d— fine time but if there is eight or ten of them going there is always some d— fool that wants to fish."

Joe and his wife must have had a hard time the first of the year after their camps were burned but their industry and pluck won out and they succeeded in handling all the parties that came along. His cabins are all filled now and they are all enjoying excellent fishing.

Monday, Sept. 1, Mrs. Helen Morse of New York City brought in a handsome string of fish, thirteen in all, which she caught on Baker stream. Speaking of the fish reminds us of the story that she told. She was very anxious to tell it to the reporter and was suspect that she wished to have it published. If that was what she wanted her wish is fulfilled for here it goes. She was fishing in a nice pool on one of the streams in the Blakeslee 'preserve and had caught a nice string of trout. Soon she got a pretty big fellow and thinking that the fish's face looked strange she examined it. At first she thought that it had whiskers but upon closer examination found that the fish had a small mouse in his mouth and had not had time to swallow it before he took her fly.

Joe is going to build some more camps for next season and has promised to send us some letters this winter to let us know how he is getting along.

### CARD OF THANKS.

We wish to extend our heartfelt thanks to the dear friends who assisted in any way in the burial of our darling boy, also for the many beautiful blowers. May God bless them.

Mr. and Mrs. H. F. Pease and family.

(Special to Maine Woods.)

Rangeley, Sept. 9.—Village schools begin Monday, Sept. 15.

Wm. R. Kempton left Saturday morning for Brewer to take up his duties as instructor of science and athletics in Brewer High school. While in college he made a specialty of science and also won some fame as an athlete, winning several prizes for the high jump.

Miss Cherrie Toothaker, who has been spending the past three weeks in Lewiston returned home Monday night.

Mrs. Tracy Barker and two children of Rumbold have been guests at L. J. Kempton's the past week.

Wm. Tomlinson, who was on the sick list the latter part of the week is again able to be about attending to his various duties.

Mrs. Wilmont Patterson, who has been at Kennebago for the past two months has returned home.

Fred Pillsbury has purchased a new Ford automobile through the local agent, F. B. Colby.

Mrs. Octavia Blanchard is spending a few weeks with her son George E. Russell.

C. C. Murphy is again at home after a three weeks' trip down Upper Dam way where he has been surveying.

The work which has recently been done on the road along by the stream mill is a decided improvement over the old road. A water way has been constructed of stone and cement which will take care of the extra water that always accumulates in this particular portion of the road in the spring. The remainder of Main street has also received a few loads of dirt which are of great benefit to this much traveled highway. The work done on the cemetery bridge also deserves honorable mention for it is not only neat and attractive but is now wide enough for teams or automobiles to pass at this point. Great credit is due the Road Commissioners for their good work which is carried on largely under the supervision of the chairman, Dr. A. Ross.

Mrs. Amanda Morrison is entertaining Miss Bourque for a few days. Mr. and Mrs. James Welch and two children of Strong spent the latter part of the week with Mr. Welch's sister Mrs. Emery Haley. Mrs. A. M. Ross was a recent guest of her brother, Ralph Knowlton at Strong. While there Mrs. Ross had the pleasure of attending the Eastern Star picnic which was held at Porter's pond.

The many friends of Mr. Geo. C. Keep were glad to welcome him back for a few days after an absence of two years.

A hearing is at last to be granted the petitioners in regard to closing Gull pond and Loon lake to plug fishing. The hearing is to be held at Furbish hall Tuesday evening, September 16.

Last Saturday evening a party of relatives and friends gathered at the home of Mr. and Mrs. Orrie Haley to attend the reception of Mr. and Mrs. Paul Pillsbury, who were married last Wednesday by H. A. Childs. The house was prettily decorated with potted plants, cut flowers and crepe paper, the general color scheme being red and white. The bride wore a becoming dress of pale blue with white trimmings. During the reception Miss Bertha Russell, a cousin of the bride furnished several musical selections. Refreshments of ice cream and cake were served during the evening. Mrs. Pillsbury is the eldest daughter of Mr. and Mrs. O. R. Haley. Mr. Pillsbury is the son of Mr. and Mrs. Fred Pillsbury and during his High school career won some fame as a runner at the Track Meets. For the present they will reside with Mr. and Mrs. O. R. Haley. Seattle Jeweler Brings Action Against Physician Who Told Him He Had Cancer.

Spokane.—Because he did not die, Goldblatt, a Spokane jeweler, has brought suit against his physician, Dr. G. R. Rohr, for \$15,000. Goldblatt alleges in his complaint that Doctor Rohr told him he had cancer of the stomach. Believing that recovery was impossible and wishing to leave his property in cash, Goldblatt says he sold his jewelry business at a sacrifice he estimates at \$15,000, and waited for death to claim him. Becoming impatient at his continued presence among the living, he consulted eastern specialists and was told that he was perfectly well.

### HIGH SCORES AT MISSISSIPPI STATE SHOOT.

Ward Allen of Tupelo, won the State Championship at the Mississippi State Tournament held there, breaking 94 clay targets out of a possible 100 with a Remington pump gun. The high amateur was J. M. Barrett, of Augusta, who recently became the Georgia champion. Using the same shooting equipment with which he captured his state's title, a Remington pump gun and Arrow speed shells, Mr. Barrett broke 389 out of 400 on regular targets and 672 out of 700 on all targets of the entire two days' program. H. D. Gibbs, who was high over all, scoring 392 out of 400 on regular and 685 out of 700 on all targets with the same perfect shooting combination, won the state professional championship with 99 out of 100, broke 199 out of 200 and 249 out of 250 on the first day and made a long run of 212 straight.

## GETS A FINE HAIR CUT

What Is Going on in Ox Bow—Checkerberry Not Used for Flavoring.

Ox Bow, Sept. 1—"Show your colors." That's a good motto for any station in life. "The Franklin Journal," it seems to me exemplifies the right application, to wit: The chief manager is White, its news editor is Brown; its columns are Black and White, its readers are not so Green as they might be, the paper as a whole is widely Red and its journalism is never Yellow. Taken in conjunction with the "Maine Woods," a better combination of commercial industrial and political news abreast with the times would be hard to find, salted and seasoned and digested, with nectar from the Maine woods. (AD:—Either one sent to any address in the U. S. of America or any of its dependencies, for \$1.00 per year in advance postage prepaid. Subscribe now and avoid the rush.) Both of these publications come to our crib regularly and we should miss them very much if they did not. We also have the Daily Eastern Argus and the Boston Sunday Post, besides our two home papers.

Unedda biscuit is good, I need-a-hair-cut, is better. It is 10 miles to the nearest barber at Masardis, my last cut two months away and the best I can do is \$1.50 out and back by auto, plus 50 cents probably for the cut—"the unkindest cut of all" as to cost. But there was one unkind happened to me at Oquossoc about three years ago. I went to Elmwood's shop. He asked me if he should use the clippers. I

thought he meant on the back of my neck and under my chin. (I was wearing a full beard) I said "yes," as usual, when, zip went the lawnmower into my side whiskers and there was nothing to it but to make both sides alike which he finally did. Needless to say, I looked like a picked rooster; my nearest and dearest friends at Billy's camps hardly knew me. I was a pretty good looking young old fellow previous to my hair-breath escapade, but afterwards for two or three weeks, I was shuffled into the discards by "The Help."

There are three things which hold the attention of the reading public at the present time, yea, four, the political embroglio in New York State; the Mexican problem; the artist, Knowles' "Back to Nature" experiment, alone without food or shelter or clothing at the start; and Harry Thaw's sensational escape from confinement at Matteawan. Which of these has the most followers or excites the greatest interest, we cannot tell; but one thing we do know, to wit: that northern Maine affords all the facilities to satisfy the man who once said: "Oh for a lodge in some vast wilderness, some boundless contiguity of shade, where rumors of oppression and deceit could never reach him more." I know for I've been here now at Ox Bow for two months, have made three long trips to the woods mostly by canoe; have camped a whole week at Millmagassett, caught trout galore, and have seen moose, deer, bear, fox, porcupine and partridges all at short range.

If all that does not satisfy the seeker of rest and healthful change, let him take note of the scenery hereabout, the pure ozone of the atmosphere and the purer water of our springs and artesian wells. Then let him fill his subway with homemade bread, hot flapjacks, nut brown doughnuts and cookies and fresh ham and eggs, juicy baked beans, corn flakes, oat meal, fresh meat (in season) and the all inclusive and inevitable hash, all washed down and sealed with a bowl of hot coffee or tea. For dessert we'll have wild strawberries, now passed and gone to pot (30 quarts of them put up) an abundance of raspberries and cream, still on the bush but fast dropping off and going to seed. "We eat what we can and what we can't we can"—we've canned a large lot but how many I know not.

## PROSPECTS FOR GAME ARE GOOD

Reports from Dead River Show Many Deer—Moose Signs in Many Places—Bear Were Never So Plentiful.

(Special to Maine Woods.)

Eustis, Me., Sept. 1—Reports from all the sporting camps in the state in regard to game are more favorable than they have been for years. Hardly a buckboard passes over the roads to the different camps without seeing several deer. Two men walking into King and Bartlett and Blakeslee saw 13 deer on the trip and they were so tame that they secured snap shots of several. They all seem to be fat and in excellent condition, probably owing to the easy winter.

For the same reason the birds are more plentiful than they have been for years and they are seen on all roads.

Bears are more plentiful than they have been for some time and the signs show that Bruin comes out in the night even to the villages in search of food.

Moose have been seen at West Carry pond and their signs are plentiful at Tim.

Owing to the new license law there will probably be fewer hunters in the state than there have been in years past but those who do come will get hunting like they have never seen before in this state.

## GETS GOOD TROUT ON FLY

Carry Pond, Me., Sept. 6—Late arrivals: A. M. Carter, H. F. Carter, J. W. Carter, C. C. Pierce, J. Eichel, Bethel, Me.; Mr. E. J. Wingert, Mrs. E. J. Wingert, New York; Harry C. Welber, Mr. and Mrs. W. C. Whitcomb, Beverly, Mass.; Mr. and Mrs. M. J. Barber, East Greenfield, R. I.; Mr. and Mrs. Chas. A. O'huenner, Mr. and Mrs. Rufus Watson, Waltham, Mass.

Mr. and Mrs. W. H. Goodyear returned to their home in Brooklyn, N. Y., this week. Mr. Goodyear was very much pleased one evening this week by taking a 2½ pound trout on the fly. This was the largest trout taken in East Carry pond since the early fishing.

## WESTERN NOTES

Caribou, mountain sheep, ptarmigan, rabbits and other game are plentiful near the new gold diggings on the Shushanna slope, 200 miles westerly from Dawson, according to E. J. Woodman of Vancouver, B. C., who was in Edmonton the week of August 18, "and," he added, "the Beaver lakes and Beaver creek are full of fish. But no one, whether hunter or prospector, should attempt to go there without horses, and one cannot much more than get in and out with a big outfit. No one there is prepared to supply anyone else."

The district on Little Eldorado creek was discovered about two years ago by William A. Johnson, William James and Nels Nelson, who have been associated together in the White river venture for years. Andrew Taylor and Thomas Doyle, who arrived at Dawson recently, brought out the first poke of gold, 197½ ounces, which was taken from Discovery claim on the creek. It was shoveled into the sluice boxes by four men working two days. The gold is coarse and of high grade, the pieces ranging from a flax seed to an ordinary red bean in size. Gold has also been discovered on most of the other creeks in this district. Labor is counted at from \$15 to \$20 a day at present on account of the great cost of getting in supplies.

Taylor and Doyle were 12 days on the trip from the Shushanna district to Coffee creek, where they boarded a steamer for Dawson. They report that a government crew is building a pack trail from Coffee creek to the head of the White river, also that the unfrozen gravel in the streams is from three to four feet in depth and has no muck on

the surface. There is ample water for all purposes, the streams being old glacial moraines.

George Willett, a trapper at Athabasca, sold eight fox whelps, two pure black and six crosses, for \$10,000 to W. W. Elliott, agent in Edmonton for a Prince Edward Island breeding firm a few days ago. The pups were caught by Indians and half breeds 400 miles northeast of Edmonton. A. G. Desere, a homesteader in the Grouard district, at the head of Lesser Slave lake, sold two black and four cross pups for \$2,190 to M. W. Wharton, representing a fox farm at Charlottetown, P. E. I., Desere sold \$19,190 worth of foxes this season. The first consignment of 18 brought \$11,500; the second of 15 netted \$4,200, and the third, as noted, was worth \$3,190. The expenses of bringing the animals to Edmonton was \$190. The Peace river Trading company at Athabasca, Alta., received one black, one silver and four crosses, on August 23, for the Peace river Crossing district. The mother of the litter, a fine silver fox, was killed when the pups were caught.

Messrs. Cormack and Mackie, solicitors for the Edmonton Silver Black Fox company, which was organized recently under the laws of Alberta with an authorized capital stock of \$370,000 to operate a fox ranch in Waldermere, a suburb of Edmonton, have drafted a measure, which will be submitted at the next session of provincial legislature this fall, to prohibit the exportation of live foxes until they have been kept at least a year on a ranch within the Province. J. Leonard Paul, organizer of the company, said that the measure if enacted, will do more than anything else to put the live fox industry in Alberta on a sound and permanent basis. At present northern foxes bring a much lower price than ranch bred animals, the reason being that their pedigree and breeding capacities are unknown. After a pair of wild foxes has been kept on a ranch for a year, however, something of their powers are known. In this way the purchaser is protected, while the trapper obtained a much better price for his foxes.

I. N. Charles, who made a record trip on a raft from Hudson's Hope to Peace river Crossing, covering the river journey in 60 hours, said in Edmonton on August 25 that the outlook is good for all kinds of furs. The country is being extensively prospected for gold, he added, and pay dirt has been found in several creeks recently. C. H. Walker, manager of the Hudson's Bay company at Grouard, also reports that fur-bearing animals are plentiful in that district. Crop prospects are excellent in the Peace river country, he said, the chief grain being oats, which is selling at \$1.75 a bushel. A. Howland of Edmonton, district auditor of the Hudson's Bay company, who has just returned from a trip of seven months to the company's posts, including Fort St. John, Hudson's Hope and Smith's Landing, reports that prospects are the brightest for a highly profitable fur season in the far north country.

Hundreds of sportsmen in Edmonton were out bright and early the morning of August 23, when the duck season opened in Alberta, and good bags were made by many. Mayor William Short, K. C., who was accompanied to the Toffield feeding grounds by George M. Hall, industrial commissioner, and a guide, brought home a string of beauties. The first accident of the season occurred when Earl Samis, 18 years of age, lost his right arm above the elbow on August 23, near the village of Namao, 18 miles north of Edmonton. Samis was in a boat with two young men when they came to a flock of ducks. He reached for the gun, barrel foremost. The trigger caught in an obstruction and the cartridge exploded with the foregoing result.

Stratton, Me., Sept. 1—Mr. Frank Alpaugh of Willimantic, Conn., who was at Tim pond this summer made the largest record in the fishing line that we have ever heard of. In July during a period of 14 days he caught 1100 trout. Mr. Alpaugh fishes only for the enjoyment of the sport and throws every fish back to make sport for some other angler.

Moose signs are quite plentiful here this season. Julian Viles on an exploring expedition to Beaver Bog recently saw many indications of their presence.

The dining room at Tim pond, which is built entirely of logs must be the largest log building in the state. It certainly will be when 36 more feet are added in the spring. Julian K. Viles and Son have a saw mill at the camps and do all their work on this, having machinery with which they can make almost any kind of lumber.

Mr. and Mrs. A. W. Thompson and son of Lowell, Mass., are here for September. Mr. Thompson is manager of the Lowell machine shop and his son is the fourth generation of the family who have been visiting the camps since they have been under the present management.

Dr. J. P. Mann and family who have been visiting these camps for eight seasons are here for five weeks.

Mr. Geo. B. Hammond and daughter of Rockville, Conn., who have visited these camps for several years are back this year for two weeks.

Some of the guests are Mrs. W. A. Wood and brother, A. W. Johnson, of New York City, Mr. and Mrs. Arthur Gregory, Hartford, Conn.; Mr. and Mrs. C. T. Miller, New Haven, Conn.; Dr. and Mrs. Eugene Carey, Chicago; Mrs. Peene and son of Yonkers, N. Y.

Quite a few guests left recently until another season among them are; Hon. J. B. Kleine, Bridgeport, Conn.; A. H. Sturken, Hoboken; Frederick Means of Panama, Bishop D. T. Huntington, London, Eng.; Judge Waldo P. Marvin, Herbes Randall, Hartford, Conn.; Dr. Arthur Middleton, Panama; Dr. Cleveland son and brother of Wednesday; Capt. Turner and Arthur Young of Boston.

## IS JOE KNOWLES

Doing All He Claims?--Guides of Dead River Do Not Believe Bear Story.

On a recent trip through the Dead River region, the Maine Woods correspondent heard much talk of Joe Knowles. The majority of the guides are of the opinion that Joe Knowles is faking. Some say that they would have swallowed it all except the bear story but that Joe "laid it on a little too thick when he made up that yarn." These guides of the Dead River are in a position to know pretty well how much Joe is doing of the stuff that is published in the papers. They are men who have been acquainted with Joe for a good many years and they are also well acquainted with the country that he is working in. They one and all agree that Knowles is a very ingenious man and that he if anyone could do what he claims to be doing. But on the other hand being well acquainted with the "wild man" as he is called by these sons of the woods, and knowing the character of the man they are all the less inclined to believe his story. He is, they claim a man who never married work and always lived with as little of it as possible.

That Knowles is in the woods near big Spencer lake and roaming through the woods with no protection except on his legs is a fact for he was recently seen by a sportsman. When Knowles saw the sportsman and heard his hail, he made no answer but quickly disappeared into the woods.

We are of the opinion that Newton Newkirk in the All Sorts column of the Boston Post took the right view of the matter when he transferred it into the comic section.

We understand that Dr. Sargent of Harvard is much interested in Knowles experiment. He is going to examine the "wild man" when he

comes from the woods and see if his life for the two months has affected him in any way. Perhaps his experiment will have a scientific value but as we are not scientists we cannot understand what it will be. In addition we do not believe that easy going Joe Knowles is depriving himself of the good things of life that he loves so well and we can see him now "beating it" through the woods on the way to his well stocked store house.

### RECORD FISH BROUGHT IN

young fisherman surely should be congratulated for on other angler at the Birches has the honor of handling a salmon of this size.

Other lucky fishermen the past week include E. J. Drake of Metuchen, N. J., with William Lufkin, guide, brought in a 3½ pound salmon. M. Hampton Todd of Philadelphia continues to catch them for another salmon of 4¼ pounds he brought to net for Jim Stewart, his guide, to land. W. H. Stevens of Englewood, N. J., Henry Bunker, guide, caught a 4-pound salmon. Edward L. Morse of Stockbridge, Mass., fishing all by himself, had great sport with a 4-pound salmon. Master J. W. Lucas is another lad who is now a fisherman and has his name on the record, for he landed a 3¾ pound salmon on Wednesday, Henry Bunker, guide.

The guests here at the Birches feel very grateful to Mrs. Harvey Farrington of Yonkers, N. Y., for it was through her efforts a fine victrola has been purchased, and the music for dancing evenings in the casino has added to the pleasure of all.

This was always a favorite place for bridal parties on their wedding trip, for life in a log cabin down in Maine is surely quite the fashionable way of passing summer days.

Dr. Henry W. Chandler of Shillman, N. J., who spent a number of seasons on the island, arrived Tuesday accompanied by his bride.

Mr. and Mrs. Harvey Farrington of Yonkers, N. Y., who came early in the season and have added much to the social life here, are now "breaking camp" and return home in a few days. Their sons, Elliott and Chandler Farrington, are going to Saint Paul's school, Concord, N. H.

J. W. Platon has returned from a week's trip to New York and the family will remain here for part of the September days.

Springfield cabin is taken this month by a party of delightful ladies: Mrs. Eli Whitney, Miss F. P. Whitney and maid of New Haven, Conn. and Miss M. Mullen of Franklin, Penn.

A letter was received by friends of Mr. and Mrs. C. W. Greer of Rye, N. Y., who have spent several seasons here, saying they are now in camp at Arnold Pond on the Megantic Preserve. Mr. Greer is a member of the Megantic Club, but this is their first season there.

R. L. Barstow and daughter, Miss A. R. Barton of Boston, are enjoying a two weeks' stay in Camp Clover.

Mrs. T. N. Richardson, three children and maid of Philadelphia, who since early in the season have been enjoying life here, have this week been joined by Mr. Richardson, accompanied by his father and mother, Mr. and Mrs. T. D. Richardson, Miss Grace Richardson and Master J. Wilson Lucas of Philadelphia, who will remain until the middle of the month.

Mr. and Mrs. Daniel B. Ruggles of Boston, who were here last season, are enjoying a short stay in Do-drop-in cabin.

Miss Katherine S. Nice of Ogontz, Penn., who has been for several weeks at Kennebago, has joined friends here for the remainder of the season.

If the weather continues during the remainder of the month as clear and comfortable as it has been this week, many people will linger as late as possible.

## OXFORDS TAKE A GAME

Scenery at Rangeley Compared with That of Europe It Stands the Test.

(Special to Maine Woods.)

Mingo Hill, Sept. 2--Rumford has sent two different ball teams to try conclusions with the Haines Landing nine since my last. Both games were played on the Mingo Springs field.

On Aug. 23, the team known as the Rumfords played a plucky up-hill game against the Mooselookmeguntics but could not prevail against Eddy's pitching, going down to defeat by the score of 12 to 4 in six innings. Up to the fourth they did not get a man beyond second base while their opponents had run in ten tallies, each side got two in the fifth and the Rumfords added another brace in the sixth. As usual the game was called at 4.45 p. m. to allow the players to take the boat back down the lake.

Yesterday being Labor Day, a party came up by special train from Rumford with the Oxfords, a team made up from workmen in the paper mill. Play was delayed until nearly half past three by the failure of several of the Rumford players to show up, they having been compelled to go some distance for dinner.

The game was quite closely contested up to the sixth inning with the Mooselookmeguntics in the lead with the score of 3 to 1. In the sixth the team from down country managed to tie up the score by getting two runs in and then set up incessant shouting at the pitcher Eddy to try to disconcert him, and apparently succeeded as they batted him quite freely for three more runs bringing the total to 6-3 at the close of the sixth, the game being brought to an end by the warning whistle from the steamer Rangeley.

One of the Oxfords was completely knocked out by being hit in the head by a pitched ball in the disastrous sixth.

Much "kicking" was indulged in by the Rumford men. Dill, who umpired the pitching being especially abused, while their own man, who umpired bases did not escape censure.

In all the games played of late on our ball field the best of feeling between the rival teams has prevailed, whatever rallying of the players that

## "WILD MAN" FREQUENTLY SEEN

Sends out Interesting Things from the Woods--Fine Fishing in August.

(Special to Maine Woods.)

King and Bartlett Camps, Sept. 1--It is from these camps that Joe Knowles made his entrance into the forest and they will be the first to see him after his two months of exile has expired. Harry Pierce the proprietor of the camps was the last man to shake hands with him when he went into the woods and Harry is Joe's guardian while he is in the woods.

Joe, or the "wild man" as the guests of the camps call him is frequently seen by guests of the camps on the shore of Spencer lake. They all report that he has a beautiful crop of hair and that his face is completely covered with whiskers. Above the waist he is naked and below he is covered with chaparral made of some kind of material, probably of grass. All the guides of the camps claim that Joe is very ingenious and a proof of it recently arrived in camp which was the center of curiosity for some little time. It was a piece of rope and so finely was it made that it was hard to determine the material, but upon closer examination it was seen to be made of the inner bark of trees.

Fishing for August at these camps has been the best that has ever been known and every day sees fishermen on the lake either casting the fly or trolling and they seldom come back empty handed.

Following are the arrivals for August: Dr. and Mrs. J. P. Croxer Griffith, Philadelphia, Pa.; Julia Hamp, Mr. and Mrs. Francis Hamp, Linlon, Colo.; Dr. T. D. Myers, Mr. and Mrs. John Marshall, Miss Helen Marshall, Miss Eugenia Kitchin, Mr. and Mrs. J. Theodor Marshall, Mr. and Mrs. Geo. Henderson, Geo. Henderson, Jr., Miss Mary Henderson, Mr. and Mrs. J. H. Brannen, James E. B. Jack, C. B. Jack, Doris B. Jack, Philadelphia, Pa.; W. M. Weid, Dr. T. A. Brickley, Mr. and Mrs. M. H. Cone, Mr. and Mrs. G. D. Arthur, Mr. and Mrs. Jonathan H. Holmes, Misses A. Smith and A. G. Fleming, Frank Ward, O'Malley, Mr. and Mrs. E. C. Hill, Geo. F. Bruyere, New York City; W. A. Boides, Stamford, Conn.; Myron J. Lyons, Miss Helene Dusossoit, O. C. Dusossoit, Boston, Mass.; J. W. Flynn, Bridgewater, Mass.; William J. Nee, Frank Eyre, Herbert Eyre, Forbes J. Munson, Geo. S. Munson, Mrs. A. Wemhold, Mr. and Mrs. Wm. A. Barnum, Brooklyn, N. Y.; Geo. T. Hickok, Newark, N. J.; Geo. A. Pitman, Lillian M. Pitman, M. P. Bais, Hartford, Conn.; Mrs. Frank Dyer, San Juan, Porto Rico; L. E. Hitchcock, Alfred F. Whitman, Cambridge, Mass.; Wm. H. Hamsay, Wellesley, Mass.; A. H. Stinken, Hoboken, N. J.; Kinsley Twing, E. H. Little, Morristown, N. J.; Ziegler Sargent, New Haven, Conn.; Mr. and Mrs. Allen B. Wallace, Summit, N. J.; L. Stockes, W. A. Robinson, Washington, D. C.

has been indulged in has not been at all noisy and almost always by a few of the younger boys, almost never by the players and we had thought that the making of a deafening racket to rattle the players had been abandoned. Surely, "Tis a custom more honored in the breach than in the observance."

This season we have many callers at our camp on the hill and several visitors have honored us with a more or less extended stay. All have been particularly enthusiastic over the scenery on this lake and enchanted with the view from our hill.

Miss Lelia Partridge, who occupies a leading position in the Eastern Kentucky State Normal school, although living in the celebrated blue grass country after a long stay with us declared this to be the "finest spot on earth to her."

Mrs. Ida Goldsmith Loeb of Wiesbaden, Germany, who is a guest of Mrs. D. F. Hays at "Camp Bay" on Mingo shore said that this lake has scenery the equal of the finest in Europe.

Mrs. Carrer of Portland, a guest at the Surings last year, being a canny scotchwoman, said the scenery closely resembled that of Loch Katrine in Scotland, the scene of Sir Walter Scott's "Lady of the Lake."

Yet how many Americans rush abroad in search of fine scenery who have never visited these lakes.

## GETS A FINE HAIRCUT

(Continued from page 6.)

I quoted in my last but one letter comments on the Prohibition law and its abuses. Today coming up the road I saw five or six empty cartons marked "Clifford Brand" extract checkerberry—Below Standard." I wondered what it all could mean, but upon inquiry I learned that many men bought many bottles of the "extract" not for the purpose of flavoring cake or ice cream, but to get drunk on. Some bottled gingers, I know are intoxicating, if drunk in large quantities, but checkerberry! who ever thought that the law could be circumvented by the humble harmless checkerberry? Look to your fences, oh ye teetotalers and clean up the pastures and the woods of all checkerberry leaves and wintergreen and so fulfil the law. The people have said no license, "Vox Populi Vox Dei" to all of which we heartily agree.

Word just received from Lake Millmagassett says that Billy and party of four sports, two ladies, Mrs. D. V. Baldwin and Miss Kent with Dr. Baldwin and Mr. Kent have had fine sport including a real bear hunt and the best of weather. They came back to Ox Bow on Sunday. Little rain has fallen for more than two weeks. The whole region has been very dry and the water is getting low in all the streams, but oats and potatoes are on the jump and ripening fast. New potatoes are now the best ever and digging will begin today. Much new land is being plowed for next spring's planting. Raspberries have been very plentiful, but now are a thing of the past. Rain came good and plenty, at last, Saturday afternoon. Among the signs of the times we notice four horse teams heavily loaded with stuff for up-river camps, also several two-horse loads of kerosene. "Let there be light" and there was light besides the lights of the campfires and of the sun, moon and stars.

We have to record several frosty nights for the last half of August. The last one about a week ago was a ripper and unprotected "garden sass" suffered severely around Ox Bow. Large numbers of sports have passed up to the Flats on their way to the lakes and camps. Fishing in Lake Millmagassett is reported to be very good now, and trout are moving up stream

toward the spawning grounds and beyond.

Walter D. Hinds of the Maine Motor Car Co., with Mrs. Hinds and friends will occupy their camp here about the 15th of September. They will come from Portland by auto and will board with Billy during their stay.

September fishing has already been opened auspiciously and trips in the woods and along the streams may be enjoyed with almost entire freedom from flies and mosquitoes. September 15th birds will begin to flutter to the ground, if found within gun-shot and on Oct. 1, deer and Nov. 1, moose will lead the chase. Prospects for good hunting in Aroostook county were never better and if the paid hunters from numerous lumber camps could be held to strict account and driven out of the country in the closed season the high license fee would be paid more cheerfully and game of all kinds would be more plentiful and last longer. When 132 deer skins can be found near one of these lumber camps in one season, it is not difficult to find one reason for vanishing game.

## NUMBER OF RECORD BEAUTIES

### Tramps Through the Woods, Trips on the Lakes, Games and Dancing.

(Special to Maine Woods.)

York Camps, Sept.—The fishing at Loon lake is for this time of the year most exceptionally good. During the past two weeks many fine catches have been made and nearly every day the limit is brought in by the guests at York's.

Mr. Kingsbury, I believe is in the lead as to numbers and some of the salmon weighing from three to four and one half pounds are certainly beauties. Miss Crehore has a 5½ pounder to her credit. Mr. Birch is not by any means far from the lead as he has many four pounders on his list of lucky strikes. Mr. Lloyd is also among those who enjoy good fishing and has brought in some fine specimens of the salmon family. Mr. Crehore has to his credit over fifteen record fish though but a few are brought ashore as he fishes with his guide Joe Tibbits just for the sport of landing them in the net and putting back for another time.

There are many young people here at present and they seem to be having a dandy time out on the lake or on tramps through the woods and all kinds of games and dancing every evening.

Among those who have not been previously mentioned in our returns to the Maine Woods are Mr. and Mrs. Kingsbury of Portland, Me. and Miss Pattie Foster of New York City. Dr. W. E. Henricks of New York City who has been here since August 16; Mr. Wallace W. Thom and Mr. Cotte of New York; Jean W. Miller and sister of New York; Mr. and Mrs. W. A. Hulbert of New York; Mrs. H. W. Elliot and Miss Elliot and Mr. Barnes of Byrn Mawr, Penn.; Mr. and Mrs. Frederic M. Crehore and Miss Crehore and Miss Eleanor Crehore of Boston, Mass.; Mr. and Mrs. Wilkinson of Providence, R. I.; Mr. and Mrs. J. S. Maxey and Miss Maxey of Gardiner, Me.; Mrs. Howard K. Hutton and two sons of Providence, R. I.; Mr. and Mrs. C. A. Harris Philadelphia, Pa.

A few are leaving here Tuesday but as more are coming the same day the camps seem to have the capacity number most of the time.

## SAW BULL MOOSE

To the Editor of Maine Woods:  
 Sept.

We returned from a two week stay at our Rangeley lake cottage to-day in our auto. We had hoped to see at least a deer while there but did not.

You can imagine our surprise when we were crossing the bridge over the outlet of Bretters pond right at home to see a bull moose walk out on a point in the pond into the water and swim across the pond about half a mile to the other side, we had field glasses and could see him plainly. One of our company, Mr. Howard Somers, ran around the shore and got very near to him when he came out of the water. He did not appear to be frightened. No moose has been seen here before for more than 70 years.

Our party consisted of S. R. Morse, Howard Somers of Atlantic City, N. J.; Mrs. B. F. Gordon and Miss Susie Gordon of Livermore.

S. R. Morse.

WILLARD T. BEEDY AND SOME THOUGHTS OF THE WEST PHILLIPS RTUNION

The passing away to the great unknown of Willard T. Beedy has brought to mind some thoughts of the first meeting of The Reunion, which I intended to have given at its last meeting, Aug. 13, 1913, and to give some facts about my first two schools taught at this old Reed schoolhouse, but, "The best laid schemes o' mice and men aft gang agley," and so as I said before, as no opportunity presented for this purpose at the reunion, I will give a few reminiscences as they come to mind and are looked up.

The first winter (for I taught here two winters in succession), was in 1864 and 1865. The following is a list of the names and ages of the scholars: William F. Brackett, 16; Rufus C. Reed, 19; Charles H. Wyman, 17; George W. Reed, 15; William P. Wyman, 15; George L. Lakin, 16; George L. Smith, 13; Frank L. Beedy, 12; Clarence Beedy, 11; George W. Beedy, 13; Wesley Lufkin, 15; George W. Brackett, 9; George Ruseau, 12; Charles W. Beedy, 11; Willard T. Beedy, 19; Levi B. Field, 15; William Hoar, 15; William F. Calden, 19; George R. Brackett, 14; George B. Orr, Edwin Beedy, 15; Jason Lufkin, 11; Warren H. Young, Names of ladies: Mary C. Reed, 15; Lura E. Reed, 17; Mary L. Beedy, 17; Nancie M. Beedy, 15; Frankie E. Smith, 11; Mary L. Smith, 14; Mary A. Lufkin, 17; Mary L. Lufkin, 9; Sarah Soule, 9; Geneva A. Plummer, 8; Emma A. Record, 13; Mary E. Wyman, 15; Josephine Wyman, 5; Jane Staples, 9; P. Emma Lufkin, 13; Mary B. Orr, 15; Belle P. Wyman, 10; Clara Plummer, 5.

A flood of memories comes o'er me. Where are all these today? "Many we loved, the loveliest and the best That from his Vintage rolling Time has prest, Have drunk their cup a round or two before, And one by one crept silently to rest." D. F. Hodges.

TEWKSBURY-MORRISON

An early autumn wedding was solemnized at Mr. and Mrs. George Hewey's of Phillips, who are relatives of the bride, when on Tuesday morning, September 9, Miss Evelyn, daughter of Mrs. Caroline L. Morrison of Auburn was united in marriage to Mr. John L. Tewksbury, a druggist of Camden.

The double ring service was pronounced by Rev. M. S. Hutchins of the Federated church of Phillips and the rings were brought by little Miss Evelyn Hewey.

The bride wore a very becoming gown of white lace princess. After a brief trip Mr. and Mrs. Tewksbury will reside in Camden where Mr. Tewksbury is now located.

The wedding was made notable by the grandeur of the surroundings. Out of doors, among the well-laden trees of a hillside orchard, under a sky of an unusually deep and beautiful blue, looking across the intermediate valley to the rugged majesty of Saddleback, Jackson and other lesser mountains of the same range from whose summits swept a cool and vigorous breeze that was only partially subdued by the warm bright sunbeams with which it played, nature indeed lent an impressiveness that can not be forgotten and is we hope, a harbinger of many days of serenity and peace.

BANGS-REED

Thursday evening, September 4, at the Free Baptist parsonage occurred the marriage of Miss Mildred Reed of Phillips to Mr. Ralph A. Bangs also of Phillips.

The double ring service was the one used by Rev. M. S. Hutchins, who performed the service.

The bride was gownned in white silk voile with trimmings of Irish crochet and satin ribbon.

The bride's mother, Mrs. Alma Reed and sister, Miss Edith Reed were present at the ceremony.

Mr. and Mrs. Bangs enjoyed a carriage drive of a few days through the country. The announcements sent out by Mrs. Reed state that they will be at home to their friends after September 10. They will reside in the McKenzie block.

Their friends wish for them a prosperous and happy married life.

WALKER FAMILY REUNION

The annual reunion of the Walker family was held on the camp ground Thursday, August 28. The day was beautiful and at an early hour the relatives began to assemble where each guest was welcomed by Mrs. Della Sampson and Miss Zedie Walker. At noon a bountiful dinner was served after which a business meeting and general sing was enjoyed. Then delicious ice cream was served to each one present.

There were forty-three relatives and invited friends present.

It was voted to hold the next reunion at Embden.

OBITUARY.

CARRIE M. BRACKLEY

Mrs. Carrie M. Brackley was born in Rangeley, Oct. 11, 1843 and was the youngest of the twelve children born to Nathaniel and Sarah (Hoar) Toothaker of that town.

The family moved to Phillips where she was but a few years old and she lived on the farm with her parents until her marriage to Jesse K. Brown on May 1, 1867. They began housekeeping in Phillips upper village and lived happily together for nearly ten years. Mr. Brown died February 26, 1877. After his death she went to her brother's home for a time, then with her mother moved into a house near by.

Until the mother's death in November, 1879, Mrs. Brackley tenderly cared for her as only a devoted daughter could.

In 1884 she was again united in marriage to Eli Brackley of Lewiston and they resided there about seventeen years. They then returned to Phillips and there Mr. Brackley died in 1904.

Mrs. Brackley united with the Free Baptist church many years ago and was a true and faithful member. Her's was a very affectionate nature and having no children of her own she was strongly attached to those of her brothers and sisters. Her life was shadowed with sadness for she was the last one of that large family to be called home, but her faith in Christ never wavered and she looked forward to a happy reunion.

She spent last winter with her niece, Mrs. Sadie Haines and while there was stricken with paralysis from which she only partially recovered. The immediate cause of her death however, was Bright's disease. In July she wished to be taken to the home of Joseph Barden, it being the same house where her married life began and it was there she died, August 31 in the very room where her first husband passed away.

The funeral services were held at the Union church Tuesday afternoon, Rev. J. B. Ranger a former pastor officiating, assisted by Rev. M. S. Hutchins.

Many beautiful flowers were placed on and about the casket, contributed by loving friends. Of the seventeen nieces and nephews all were present save Mrs. Thalia Scott of North Dakota, Mrs. Thalia Oakes of Auburn and Mrs. Jessie Williams of Bath. She was laid to rest in Evergreen cemetery.

N. E. VINING

Died September 6, at his home in Avon, Eugene Vining, aged 64 years. The funeral was at the Union church, Sept. 8, Rev. M. L. Hutchins officiating. Interment at Evergreen cemetery. The solemn and impressive burial service was conducted by the Maschig order of Phillips of which he was an esteemed and honored member.

At his grave, as did Jesus of Nazareth at the grave of Lazarus, we wept not for him, but for ourselves. After life's fitful dream he sleeps well, the long dreamless sleep of untroubled rest. A worthy citizen has been taken. In his son-

cial and business transactions integrity was his motto.

His life and his death are as an open book known and read by all men and from which lessons of hope and patience may be learned. Through his sickness no complaining word passed his lips. Submissively he bowed his head and endured his lot, courageous, hopeful and cheerful to the end. With helpful words and kindly deeds he was indeed one "Who lived in his house by the side of the road and was a friend to man.

Loyal to his friends, true and faithful, he has left an example worthy to be followed. A loving brother and a devoted husband, his memory will be a blessed benediction to those who mourn his loss. Hosts of friends grieve with them and extend their heartfelt sympathy. Our loss is his eternal gain. As a shock of corn fully ripe, he has been gathered home to the city of God where the weary are at rest.

Besides the widow, Mr. Vining leaves five brothers, Henry O. of Haverhill, Mass.; A. L. Vining Nashue, N. H.; Bernard Vining of Farmington; F. S. Vining, Hartford, Conn.; and H. H. Vining of Phillips and two sisters, Mrs. M. J. Sawyer and Mrs. Alberta Osgood of Boston.

THE RENEWAL A STRAIN.

Vacation is over. Again the school bell rings at morning and at noon. Again with tens of thousands the hardest kind of work has begun, the renewal of which is a mental and physical strain to all except the most rugged. The little girl that a few days ago had roses in her cheeks, and the little boy whose lips were then so red you would have insisted that they had been "kissed by strawberries," have already lost something of the appearance of health. Now is a time when many children should be given a tonic, which may avert much serious trouble, and we know of no other so highly to be recommended as Hood's Sarsaparilla, which strengthens the nerves, perfects digestion and assimilation, and aids mental development by building up the whole system.

The parties that owned the land were away and they wish to thank those who put the fire out although they are unknown. ## BUSY MONTH AHEAD

### Close of a Successful Summer Season Is at Hand--Many Guests Leaving.

(Special to Maine Woods.)

Belgrade Lakes,

Sept. 2.

To-morrow the so-called summer season will end and very many of the summer guests will depart for their city homes, leaving rod and reel with the motor boat to await another summer.

The time of schools to begin is at hand and the apparently neglected business routine again to be taken up.

It has been a very busy and successful season commenced late but many people have filled the whole village making it seem more like a small city than a country village.

Fishing has been good and occasionally a large fish will be brought in, exciting the admiration catch one like it.

Mr. Samuel Jones of New York city came in Sunday with a large pickerel weighing 5½ pounds with a head and mouth large enough for a ten pounder.

Among the departing guests after the holiday were Mr. and Mrs. Francis Healy of Providence, R. I.; Mr. and Mrs. Grotectoss of Suffern, N. Y.; Mr. and Mrs. C. E. Wand, Malden, Mass., Rev. Dr. White and family who have spent the summer here and have been welcome guests for many years.

Letters come in almost daily for accommodations for the month of September which looks like a busy month ahead.

### HAVE YOU URIC ACID TROUBLE?

Many Phillips People Are Learning How to Avoid It.

You hear a great deal about uric acid trouble. This is only a form of kidney sickness. When weak, the kidneys pass off only a part of the uric acid poison. The best remains in the body to irritate the nerves and disturb the organs. Uric acid may cause heart trouble, headache, bad digestion, rheumatism, neuralgia, gout, dropsy and gravel. Doan's Kidney Pills are especially prepared for weak or sluggish kidneys. Are endorsed by thousands and are endorsed at home. Can any Phillips reader doubt the following statement? It's from a resident of Phillips.

John W. Kennedy, Phillips, Me., says: "I suffered from kidney trouble for years and at times was hardly able to get about. The action of my kidneys was irregular. Although I doctored and took different medicines, I was not helped. Finally, someone advised me to take Doan's Kidney Pills and I got some at Cragin's Drug store (now Preble's Drug store). They helped me in every way. They seemed to clear my system of uric acid poison and they also relieved the pains."

The Maine Woods employees have Miss Mildred Toothaker to thank for a huge and beautiful bouquet of sweet peas from her garden. Miss Toothaker states that they have been very prolific this year and that she has given away quantities.

The illustrated lecture which was advertised to be given by Miss Elizabeth Helena Soule of Boston, at Lambert hall last Friday evening was much enjoyed by those fortunate enough to attend. The audience was not so large as it was hoped it would be, but the lecture proved none the less interesting. Miss Soule has a distinct, well modulated voice and holds the attention of her audience. The collection of slides presented was an uncommonly interesting one. All the details of the remarkably heavy and expensive costume which Capt. Sorcho wears, with its method of conveying air to the diver, with its telephone, etc., were vividly shown, also the order in which they are put on and adjusted by the diver's much needed assistant. All of which served to emphasize, in one's thought, the risks a diver runs every time he descends into the depths of the sea. Not the least interesting, of course, were the details of his connection with the sunken Maine. Miss Soule has for many years been one of the best known teachers in education in New England. She has had many of the theologian students under her training.

Miss Lillian Cleveland of Lynn, Mass., was the guest of her father, Mr. C. E. Cleveland last week.

Mr. and Mrs. Earle Voter and two children of Everett, Mass., were in town, Wednesday afternoon leaving on the morning train to visit Mrs. Voter's parents, Mr. and Mrs. C. U. Plaisted at Livermore for a short visit. They have been in Rangeley for a week or two with Mr. Voter's parents, Mr. and Mrs. Elmer Voter.

A most enjoyable regatta was given at Music hall, Farmington, recently by Miss Mabel Starbird, assisted by Miss Elsie Oldham. Miss Starbird's voice was at its best and has lost none of its oldtime sweetness. The selection, "A Perfect Day," was in perfect keeping with her voice. She was generous in her encores responding at the close with, "Home Sweet Home," which she rendered with much feeling.

Miss Florian Wheeler returned home last week, Wednesday, after passing the summer with relatives in Rockport.

The children are trudging the time worn path, just as other children have done for generations. But the modern children should have watches.
